Job Title: Data Analyst

Company: TechNova Solutions

Location: Bangalore, India

Job Description:

We are seeking a highly skilled and motivated Data Analyst to join our growing team. The ideal candidate will have strong analytical skills, proficiency in data analysis tools, and the ability to turn data into actionable insights.

Key Responsibilities:

- Analyze large datasets to identify trends, patterns, and insights.

- Create dashboards and reports using Tableau, Power BI, or similar tools.

- Work with cross-functional teams to gather business requirements.

- Use SQL to query and manage relational databases.

- Perform data cleaning and preprocessing using Python or R.

Requirements:

- Bachelor's degree in Computer Science, Statistics, or a related field.

- Proficiency in SQL, Excel, and one scripting language (Python preferred).

- Experience with data visualization tools (Tableau, Power BI).

- Strong communication and problem-solving skills.

- Understanding of statistical concepts and hypothesis testing.

Preferred:

- Knowledge of predictive analytics or machine learning.

- Familiarity with cloud platforms (AWS, GCP, or Azure).
